Medium	English	English
Year of Passing	2024	2022
Score	87.49%	95.73%

PROJECTS

PlanIt-Task Manager Website | January 2025 - March 2025

- I have mastered HTML, CSS, and JavaScript, along with backend technologies like Flask and SQLAlchemy. I successfully developed a task management website as a project, which allows users to efficiently manage their tasks. Users can add, prioritize, and categorize their tasks, making organization easier. The tasks are also displayed on a calendar for better visualization and scheduling. Additionally, users can upload PDFs related to their tasks for reference. This project enhanced my skills in full-stack development, database management, and user experience design
